Dear Lucie,

Congratulations again on launching a court action to gain justice for the former spouses of military personnel.

I very much appreciated the advance information on your press conference as well as the opportunity to meet with all of you afterwards.

I want to assure you that I will continue to pressure the President of the Treasury Board until the public service and armed forces pension plans are fair and equitable, and fully conform to the Charter of Rights. I also suggest that all of your members be encouraged to write or telephone directly their own Members of Parliament.

Again, thank you and congratulations.

Yours sincerely,

Marlene Catterall, M.P.
