B.C. WOMEN ARTISTS

'74

## THE ARTISTS REPRESENTED:

Early in June, ISIS sent out over 400 invitations to women artists throughout B.C. to have their work represented in a touring exhibition and slide catalogue. Women of all ages and backgrounds responded, and our resulting collection of slides was incredibly diverse, both in its style and content, presenting a broad spectrum of the art activities of women in the province.

Because we had comparatively little time in which to collect this material, we were not able to reach many of the artists we wished to have included. However, we are hoping to continue this project throughout the fall, building a comprehensive catalogue of B.C. women artists which would be a valuable reference for any person or group concerned with art in this province.

All of the works which we have on the tour were loaned to us by the artists without charge, and we are extremely grateful to them and to all those who responded, and without whose enthusiasm and effort the exhibition could not have been realized.
