

♀ CHOICE UNDER ATTACK

PROTEST THE APPEAL DECISION

Four jury acquittals of Dr. Morgentaler on abortion charges have proven that the people reject the present law and believe that all women should have full access to safe, free abortions. Higher court judges have defied the jury system and women's right to choose by appealing the latest jury acquittal and ordering a new trial. This can only serve to put off responsible parliamentary action and prolong the difficulties of women looking for safe, medically insured abortions.
