

Conference in Solidarity with Women of South Africa and Namibia

Ad Hoc Planning Committee

January 18, 1985

Dear Friends:

Enclosed (at last) are the documents we promised you from the Conference in Solidarity with Women of South Africa and Namibia. There are of course reasons for the delay, but I will spare you the details. Please accept our apologies for the delay and I trust you have not be unduly inconvenienced by it.

You will note that the recommendations are just that - recommendations and not resolutions. When the steering committee came together to organize & categorize these as they were received from the workshops, we realized they were too diverse to be formulated as resolutions. There was also considerable overlap and in some cases, lack of clarity about content and meaning. As a result, we decided that it would be appropriate to formulate the reports and resolutions from the floor into recommendations & in this way, delete those which were repetitive. It is our hope that you will find these useful and be able to use them in a number of ways. It is also our hope that they will be circulated to those networks many of you represented at the Conference and in this way, give wide circulation to the recommendations and the need for ongoing interest and commitment to the people of South Africa and Namibia as they struggle for their freedom.

We have also included names and addresses (when we had them) of the participants in the Conference and the names of the groups represented on the Ad Hoc Committee which planned this conference. There are also addresses for the liberation movements. We hope this will facilitate contact amongst interested individuals, the various solidarity groups and networks, and with the liberation movements.

Again, thank you for your interest and participation in this event, and if you have any further comments or questions, please drop us a note.

In Solidarity,

Wendy Hunt for
the Ad Hoc Planning Committee
