

LIBERATION MEDIA

Liberation Media began as a group of 12 women who started working together in January of 1972, on a grant from L.I.P. We think that television programmes misrepresent women and do not include them in any meaningful way in a Canadian context.

During this past year we have learned to put together television shows with the help of Ryerson Community Television studios and Keeble Cable. But we don't think that the shows are getting to the people we made them for...that is, women interested in women's issues. So every Tuesday at 3:00 P.M. we plan to show a half hour tape, have a discussion, and demonstrate how to use the porta-pak at the Women's Place.

October 10 - ABORTION: History of abortion practices, attitudes, laws. Techniques of abortion, procedures for securing an abortion. Women recount their experiences around abortion.

October 17 - ANATOMY & BIRTH CONTROL: A thorough study of the female reproductive system and methods of birth control. Original graphics and a film of an internal examination.

October 24 - RAPE, JUSTICE & KARATE: A dramatic presentation of historical and contemporary attitudes toward rape. Rape under the law. Mental and verbal as well as physical rape. A brief look at one defense technique.

October 31 - HISTORY II: Women in Canada 1867-the 1950's. The struggle to enter the work force and professions. The Suffrage movement. How the wars affected women.
