

INTRODUCING RE:BIRTH

Choices in Childbirth is a consumer group which formally started up in the summer of 1983 to support the right and responsibility of all parents to determine the circumstance in which birth takes place. We are a collective of consumers who support family centered birthing in all environments provided that parents have received appropriate information, and have been encouraged to make their own choices about their birthing experiences.

We are now producing a newspaper entitled Re:Birth which provides up to date information to consumers and professionals about health care during the childbearing year. The newspaper includes updates on important events about birth, regional happenings and issues, and feature articles on special issues such as birth centres, silver nitrate, midwifery, ultrasound, etc. Our principal aim will be to unify what is happening in the field of childbirth in Ontario through education, and have some impact on relevant issues.

The newspaper will be coming out 4 times a year, with the first issue scheduled for April 1984. The subscription cost for one year (4 issues) is \$10.00. We know that you will find the newspaper well worth the price.

If you would like to subscribe to Re:Birth, please fill out the form at the bottom of the page and return it to the address noted on the form. Please be sure to include your postal code on the subscription form: we need it for mail sorting purposes. Please make cheques payable to Re:Birth.

The subscription to Re:Birth also entitles you to membership in Choices in Childbirth. This means that you will be counted as part of the growing number of consumers concerned with childbirth practices in Ontario. If you would like to be a member, please check the box on the form below.
